Subject: Second- and third-line antidiabetic agents - accredited by RCGP

Hi Mujahid,

I hope you are well. I just wanted to let you know that *Second- and third-line antidiabetic agents* has just received accreditation from the Royal College of General Practitioners. They had this to say about the module: "*An excellent module. A great opportunity for delegates to learn a great deal going from 30% pre-module assessment to 100% post-module.*"

Just thought this may be of interest!

Best wishes,

Ria
